

CYRIL D. MOIT

INDUSTRIAL ENGINEER

Bacoor City, Cavite, Philippines | 0905-452-3147 / 0968-355-0311 | cymoito@gmail.com

PROFESSIONAL SUMMARY

Industrial Engineer and business owner with 5+ years of hands-on experience in inventory, purchasing, supplier coordination, demand tracking, and business operations. Uses Microsoft Excel, Power Query, Power BI, and SQL to organize and analyze operational data for inventory, demand, and replenishment decisions. Production engineering background with experience in process monitoring, problem solving, and operational analysis.

TECHNICAL SKILLS

Data Analytics: Microsoft Excel, Power Query, Power BI, SQL, PivotTables, Pivot Charts, XLOOKUP, SUMIFS, IF/IFERROR, data cleaning

Supply Chain Analytics: Inventory analysis, demand analysis, replenishment analysis, stockout analysis, purchasing analysis, KPI reporting.

Supply Chain Operations: Inventory control, purchasing, supplier coordination, product movement monitoring.

Systems: SAP Business One – Logistics

PROFESSIONAL EXPERIENCE

Owner / Supply Chain Operations Lead

Farmtech Agri-Poultry Supply | 2021 - Present

- Review sales and inventory records to determine replenishment requirements and purchasing priorities.
- Maintain sales, inventory, and purchasing records used for supply and replenishment analysis
- Compare supplier pricing and availability when planning purchases and maintaining product availability.
- Monitor product movement, stock levels, and stockouts to identify items requiring replenishment or review.
- Use Excel and Power Query to clean and combine sales, inventory, and supplier-order data.

Production Engineer

Global Maxx MFG. Corp. | November 2019 - March 2020

- Monitored production output and process conditions to identify issues and support corrective actions.
- Tracked production defects and coordinated with other departments to address recurring production problems.
- Supported process changes and updated work methods on the production floor.
- Monitored production performance to support stable operations.

Production Department Intern

Makati Foundry Incorporated | February - April 2019

- Reviewed production flow and cycle times for process analysis
- Inspected raw and finished goods dimensions.
- Encoded purchase orders and job-order records for the production department.

Analytics Project

Sales & Demand Analytics Dashboard

September 2026

- Analyzed 1,347 sales lines across 827 customer orders to evaluate product sales and demand patterns.
- Used Excel and Power Query to clean, transform, and summarize transaction data.
- Built PivotTables and Pivot Charts to analyze sales by product, category, and time period.
- Developed KPIs and interactive filters to monitor sales performance and order activity.

Inventory & Replenishment Dashboard

September 2026

- Analyzed inventory records across 340 tracked products to monitor stock availability and inventory value.
- Combined inventory, sales-summary, and supplier-order data using Power Query to evaluate replenishment conditions.
- Identified 15 stockout products and compared their recorded sales with replenishment activity.
- Built PivotTables, Pivot Charts, KPIs, and slicers for stockout, inventory, and replenishment analysis.

EDUCATION

Bachelor of Science in Industrial Engineering - De La Salle University – Dasmarias (2014 – 2019)

PROJECTS, TRAINING & CERTIFICATION

- Relevant training includes Digital Supply Chain and SAP MM: Understanding the Role of SAP in Materials Management.
- Supply Chain Management Specialization - Rutgers, The State University of New Jersey, Coursera
